

## REPORT

### “Writing A CV - Exploring the Types of Jobs Related to Water and Water Careers”

MALATYA,TURKEY

**\*DURATION:** January 2018.

**\*PARTICIPANTS.:** A student of 10 grade

**\*TECHNIQUES:** Research and writing.

**\*AIMS:**

- Improving students` knowledge about the jobs related to water in Turkey.
- To raise awareness about the importance of these professions.
- Individual learning.

**\*COMMENTS:**

This was held due to the plan of activities of Erasmus K2 international project “Water in our world” (WOW). In this assignment one of our students from 10th grade had a research about the jobs related to water in Turkey. By doing so the students was able to make research about the job fields, related universities and many other details (certificates, university degrees etc.) related to the given profession. At the end our student prepared a hypothetical CV of a job she selected and presented it to the other students. By this way we were able to raise awareness about the jobs related to water and they had a lot of ideas that they may considers doing in the future.

**\*IMPACT:**

Our students had fun and raised awareness observing and researching about the jobs related to water.

**\* RESULTS:**

Having new ideas about the jobs give them new ideas about these professions that they might even do as their own profession in the future. They were able to realise the opportunities that these jobs present and the contribution that they might be able to give to the world thanks to doing these jobs.
